I really like this game that there were some bugs and I also finished all the levels and I think there should be more I think that this game is fun and entertaining was very good to play this game I love that I just think there should be more levels because I am completely done with all the levels I think all the levels were amazing that it was every fun and very interesting I had some problems with the control sometimes I did not let move or you know it was just hard to play I love this game! It's very intense and it's a lot of fun to make jokes to the boss! However, there were many additions. I am forced to resort to my WiFi. That bothers. Also the controls are a little hard and sometimes fails. Otherwise very good and addictive! It's very realistic and I get scared when the boss comes. 🍀 I ♥ two episodes in the game and now because of this game I have scary teacher! Please add more levels because I love it so much! Keep the awesome games!! I played this game for about 2 years and the first time I made fun of the boss I was like this was boring so I got out of the app and started playing gacha life but I got tired of playing gacha life so I went back to the app I played the app for a few hours until it was time for me to go to sleep the next day I woke up I started playing the app again , but after 2 years I made fun of the boss I thought the idea of this game is very good together, but there might be some improvements. Like voice characters they can say complete sentences and be able to interact with other co-workers. The second episode with the new boss can't see his red mark until you get very close to him, but I guess that's what makes it harder and more exciting. This game has great potential, but could use a lot of settings. I loved this game! It's fun and it's also a fun game to play when you're bored. But I think it would be more interesting if the game had more levels. Every morning I get into this game to play it. I'm not done with all the levels yet, but almost. Another thing I don't really like controls. Sometimes it's hard to move them. A little glitchy, but it's still fun! Developed by Aleem Afzal. You'll definitely love their amazing missions. Mocking your angry boss and making him crazing is a unbelievable ever. Let's download and have fun!!! Features: • Interesting activities!• Address map and tips!• Addictive gameplay • Different mysteries to solve!• High quality 3D graphics!• Amazing sounds!• Smooth and easy controls! I love this game, but sometimes it's late and in the store things on the ground don't touch the ground. I would definitely recommend having more levels and it has to be scarier. I think there should be more ways to talk to the other employees or be friends with the boss. I also think we should be about to go to the bathroom. And eat also none of the other employees ever do anything but sit down. As the lady at the front sits there and I think we should be able to go home or something you know. Just a thought. If it was rude in this review I really sorry, but I really love this game I have been playing over and over again because it's so fun. I'm sorry, it's also 🍀 I love this game so much! Except that grammar needs a little work and maybe add more bad things to do and more levels. Maybe even one way I'll be a good guy and be the favorite! Maybe we can also try to get the boss fired someday and take his place? That will be in a different way called: befriend and betray? Maybe we can interact with the other employees? That'll go well in the way I know a good guy and be the favorite and O the way to befriend and betray because of what you can gossip about them with the boss if they tell you something personal so he doesn't like others anymore.
